

PAC Horizontal Seal STC 52

The **PAC-HS** series is designed for use when an acoustical seal is needed in a joint with high levels of movement. The PAC HS can expand and contact up to 50% of it's design width allowing for an air tight acoustical seal. The PAC-HS is acoustically tested up to an STC 52. The PAC-HS is available in several silicone colors from Dow or Sika. The PAC-HS is sold in 6ft 6 in lengths, prepackaged and compressed. The two part adhesive is included.
