

FORMULA ONE PADDOCKS LAS VEGAS, NEVADA

PRODUCT

OVERVIEW

The PAC RSIC-1 sound isolation clips were installed in the Formula One Paddock in Las Vegas, Nevada. The RSIC-1 clips were installed within the walls and ceilings above the paddock garages in order to stop noise and vibrations from entering the suites above.

PROJECT DETAILS

300,000 sq ft paddock building, four level parking structure, 13 garages with three bays each, premium clubs & bars, and high-end suites.
